

IHT Taper Relief

How does it work?

For financial advisers only.

What is taper relief?

It is a tax relief that is applicable when UK inheritance tax (IHT) is due on a gift that is made within 7 years of a person's death.

When does taper relief apply?

Taper relief applies where:

1. the transfer was made more than three years before the transferor's death, and
2. tax is due on the transfer in its own right (the amount that exceeds the nil rate band (NRB) (currently £325,000)).

The following examples assume that no previous gifts have been made and all lifetime exemptions have already been used:

EXAMPLE 1

In December 2013, Mr Jones made a gift of £500,000 into a Bare Gift Trust. He dies in October 2018.

The IHT calculation is: £500,000 (value of gift) - £325,000 (NRB) = £175,000 X 40% (rate of IHT on death) = **£70,000** tax payable.

The gift was made 4 years and 10 months before the death of Mr Jones. Therefore, taper relief of 40% can be applied to the IHT payable on the gift.

Taper relief = £70,000 (IHT due on gift) X 40% = **£28,000**

Tax payable = **£42,000** (£70,000 - £28,000)

Effective Rate on Gift: £42,000/£175,000 x 100 = 24%

What are the current rates for taper relief?

| Time between date of gift and date of donor's death | Taper relief applied to tax due | Effective rate on gift |
|---|---------------------------------|------------------------|
| 0-3 Years | 0% | 40% |
| 3-4 Years | 20% | 32% |
| 4-5 Years | 40% | 24% |
| 5-6 Years | 60% | 16% |
| 6-7 Years | 80% | 8% |

After 7 years the gift will be outside of the estate and no UK IHT is due.

EXAMPLE 2

In December 2011, Mrs Taylor made a gift of £1,000,000 into a Bare Discounted Gift Trust. Based on the initial underwriting decision, £563,815 (the discount) is immediately outside of Mrs Taylor's estate for IHT. The value of the gift for IHT is reduced to **£436,185** (£1,000,000 - £563,815). Mrs Taylor dies in July 2018.

The IHT calculation is: £436,185 (value of gift) - £325,000 (NRB) = £111,185 X 40% (rate of IHT on death) = **£44,474** tax payable.

The gift was made 6 years and 7 months before the death of Mrs Taylor. Therefore, taper relief of 80% can be applied to the IHT payable on the gift.

Taper relief = £44,474 (IHT due on gift) X 80% = **£35,579.20**

Tax payable = **£8,894.80** (£44,474 - £35,579.20)

Effective Rate on Gift: £8,894.80 / £111,185 x 100 = 8%
